Proposed Existing building Waste Reuse.

Dear Julia,

Please find below list of materials from the existing buildings for reuse.

Main Building

Structure: timber frame.

- Disassemble structure.
- Store termite free pieces.
- Use in building timber frame

External Cladding:

- Remove existing timber lapship cladding and store.
- Remove paint.
- Reuse cladding at L1.

Internal Cladding: pressed metal and plasterboard

- Remove pressed metal wall cladding
- Clean from paint
- Re-use in historical renovations

Windows and doors

- Remove architraves and store
- Reuse in new built or historical renovations

Lights Fittings: period pieces

- Remove and store
- Reuse in historical renovations

Garage

Structure: steel

Cladding: Corrugated iron

Roller door – two of them

Action: dismember garage and move to new location

Kind Regards,
Ewa Knapik
